

"A Safer Swipe"

Improve Payment Security and Protect Your Reputation!

CATS[®]

Card At Table Service

Enhance your customer's restaurant, nightclub or bar experience while expediting the payment process.

Bellatrix Systems, Inc. has the Solution.

CATS (Card at Table Service) is a practical alternative to the process of how credit card transactions are handled in restaurants, bars, nightclubs, and many other hospitality environments. Designed so that the customer's credit card never has to leave the table, CATS provides the security customers demand and reduces the risk for lost or stolen credit cards.

Benefits of CATS:

- Streamlines productivity increasing table turnover
- Exceeds PCI DSS requirements for payment processing solutions
- Affordable alternative to Pay at Table or manual methods
- Seamlessly integrates into virtually any point of sale system
- Easy to set up; simple to use, requires little training or technical support
- Handles a variety of transaction types, from split tickets to gift cards

SIMPLE. SECURE. AFFORDABLE.
